

In 2003, the *Orthodox Christian Network (OCN)* became an official agency of SCOBA and now is working as an official agency of the Assembly of Canonical Orthodox Bishops of North and Central America. OCN was commissioned by our Hierarchs to create a national, sustainable and effective media witness for Orthodox Christianity throughout North America. The agency produces the only national syndicated Orthodox Christian radio broadcast, "Come Receive the Light," and draws on all forms of modern media to spread the message of our Orthodox faith. Offerings include Internet video broadcasting and radio stations, online learning events, podcasts, and blogs. OCN works in direct collaboration. It works in direct collaboration with sister agencies (e.g., IOCC, OCMC, OCF, OCPM, OCEC), as well as with various Orthodox Christian jurisdictions and pan-Orthodox parachurch organizations. Our goal is to engage the broader culture of North America with Orthodox Christianity's rich theological, spiritual and moral heritage and to thereby strengthen the Orthodox Church's witness and contribution to the culture in which we live.
